HYDRASCALP WITH KERAVIVE

PRE-TREATMENT INSTRUCTIONS:

The HydraScalp with KeraVive Treatment is a first of its kind treatment to address poor scalp health and common scalp and hair concerns:

• Damaged and thinning hair

• Lack of circulation

• Clogged hair follicles

• Dandruff

• Product build-up

• Scalp irritation, dryness, flaking and itching

For maximum scalp health, HydraFacial Keravive is a series of 3 in-office treatments, once a month for 3 consecutive months, with daily use of the take-home spray between in-office treatments

• Arrive to your appointment with washed and dry hair and avoid the use of any hair styling products.

POST TREATMENT INSTRUCTIONS:

• Immediately after treatment please allow the scalp and hair to dry before using heat or styling products.

• The day after your HydraScalp with KeraVive in office treatment use the Keravive 30- Day Peptide Complex Scalp Spray once a day for 30 days. Use the nozzle to directly spray 1-2 pumps on the scalp in each problem area and massage in for 30-60 seconds.

• For best results apply in the evening to allow the solution to remain on the scalp overnight.
